Why not experience them all?

Have you fallen off track on your New Years Resolutions? Spring forward into total body wellness with a spa membership. For as little as \$99 per month you could reduce stress, feel better & look your best. Cold season is far from over and allergy season will descend upon us very soon. The best way to ward off sickness? Take care of your body & your mind every. single. day. Let us assist you in your wellness goals this year not only with our conscious human touch, but also by educating you on a holistic lifestyle.

For more benefits of spa membership, [check out our website](#).

This month we are beginning our spring updates to the spa. These updates will not greatly affect the flow of business, but we want everyone to be aware that our team will be making some physical changes to our space. During this time we ask that you please excuse the fact that some aspects of the spa may not appear as our typical beautiful space. We apologize in advance for any inconvenience and look forward to showing you all of our beautification updates!
