

Welcome to September, or as locals call it “the best time of the year to be at the beach!” The temperature is a little cooler, the crowds are a little smaller, and the ocean still feels amazing! We hope that you will come and spend some time here with us in Rehoboth Beach, and most importantly at our spa!

Without a doubt, this summer was like no other. We reopened our spa in early June, honestly with many worries and wonders. We are really happy to report that everything went better than expected. Clients and customers were very compliant and appreciative of the new COVID 19 related rules and regulations, and we went through the entire summer without any issues or health problems. We had a smaller team than most summers, but we made the most of it and had fun beginning to rebuild our business.

We look forward to seeing all of you again. We are very proud to provide a safe environment for all clients and also for our wonderful team of talented spa therapists. We are introducing some wonderful new products & treatments for fall and winter. Please join us!

Cranberry Sangria Body Treatment

A fruity, sultry compress, blended with nourishing vitamin E and coconut oil is the first step on this berry-rific body treatment. Next, breathe easy as dull, flaky skin is banished away with a sea salt refining scrub – rich with notes of clove and nutmeg to spice up your treatment room. You're painted with a resveratrol-rich serum, ripe with winery grapes from Texas. We call this a "smoothie for the body" as it supplies skin with a host of antioxidants. Finally, hydrate with a magnolia extract botanical body oil that treats skin to vitamins A & E – bringing you tranquility and newly invigorated skin.
